California Health Benefit Exchange Chief Actuary/Director of Research

The vision of the California Health Benefit Exchange is to improve the health of all Californians by assuring their access to affordable, high quality care. Beginning in 2014, the California Health Benefit Exchange will allow individuals and small businesses to compare plans and buy health insurance on the private market. A successful Exchange will provide purchasers with a more stable risk pool, greater purchasing power, more competition among insurers and detailed information regarding the price, quality and service of health coverage. It will also streamline access for individuals to programs that provide subsidies for health coverage. The Exchange will increase the number of insured Californians, improve health care quality, lower costs, and reduce health disparities through an innovative, competitive marketplace that empowers consumers to choose the health plan and providers that give them the best value.

The Chief Actuary/Director of Research for the Exchange will be under the general direction of the Executive Director and will manage the collection and analysis of data, trend reporting, and market study information needed for the Exchange's policy development and health plan, population health costs, and risk assessment. The Director will be strategic thinker, team-builder, innovator, and collaborator with an entrepreneurial mindset and strong verbal and written communication skills, who works effectively with diverse stakeholders and foster diversity, is composed and calm under pressure, and has a passion for the Exchange's mission.
