

Proposed Timeline: Reporting Baseline Measurements for 2017 Certification Application

Covered California 2017 Quality Initiatives Metrics and Specifications Workgroup – March 22, 2016

Covered California proposes the following timeline for reporting baseline measurements for components of the Quality Improvement Strategy (QIS) in the 2017 Certification Application. This will allow sufficient time to finalize specifications for certain measures and align due dates for hospital safety measures with the public release of HAC rates for California hospitals.

Question Number – 2017 Certification Application	Measure Description	Proposed Due Date		
		May 2	September 30	November 1
8.3.2.1	Self-reported race/ethnicity	X		
8.3.2.2	Disparity measures		X	
8.3.3.1	Number/% Covered California members selecting/assigned to a PCP	X		
8.3.5.1	Number/% hospitals reporting to CMQCC	X		
8.3.5.2	Number/% hospitals meeting CalSIM NTSV goal	X		
8.3.5.3	Hospital NTSV rates	X		
8.3.5.4	Payment strategies for maternity services and number of hospitals paid using each strategy	X		
8.3.6.1	Hospital HAC rates			X
8.3.6.2	% of hospital payment at risk for quality performance and list of quality indicators used to assess performance	X		
8.3.6.3	Number/% of hospitals with payment at risk for quality performance	X
