1 Application Overview

1.1 Purpose

The California Health Benefit Exchange (Exchange) is accepting applications from eligible Dental Issuers¹ (Applicants) to submit proposals to offer, market, and sell qualified dental plans (QDPs) through the Exchange beginning in 2019, for coverage effective January 1, 2020. All Dental Insurance Issuers currently licensed at the time of application response submission are eligible to apply for certification of proposed Qualified Health Plans (QHPs) for the 2020 Plan Year. QDP Issuers contracted for Plan Year 2019 will complete a simplified certification application since those issuers have a contract with the Exchange that imposes ongoing requirements that are similar to or satisfy the requirements in the certification application and consideration of this contract performance is included in the evaluation process. The Exchange will exercise its statutory authority to selectively contract for health care coverage offered through the Exchange for Plan Year 2020. The Exchange reserves the right to select or reject any Applicant or to cancel this Application at any time.

1.2 Background

Soon after the passage of national health care reform through the Patient Protection and Affordable Care Act of 2010 (ACA), California enacted legislation to establish a qualified health benefit exchange. (California Government Code § 100500 et seq). The California state law is referred to as the California Patient Protection and Affordable Care Act (CA-ACA).

The Exchange offers a statewide health insurance exchange to make it easier for individuals to compare plans and buy health insurance in the private market. Although the focus of the Exchange is on individuals who qualify for tax credits and subsidies under the ACA, the Exchange's goal is to make insurance available to all qualified individuals. The vision of the Exchange is to improve the health of all Californians by assuring their access to affordable, high quality care coverage. The mission of the Exchange is to increase the number of insured Californians, improve health care quality, lower costs, and reduce health disparities through an innovative, competitive marketplace that empowers consumers to choose the health plan and providers that give them the best value.

The Exchange is guided by the following values:

- **Consumer-Focused:** At the center of the Exchange's efforts are the people it serves. The Exchange will offer a consumer-friendly experience that is accessible to all Californians, recognizing the diverse cultural, language, economic, educational and health status needs of those it serves.
- **Affordability:** The Exchange will provide affordable health insurance while assuring quality and access.
- **Catalyst:** The Exchange will be a catalyst for change in California's health care system, using its market role to stimulate new strategies for providing high-quality,

¹ The term "Dental Issuer" used in this document refers to both dental plans regulated by the California Department of Managed Health Care and insurers regulated by the California Department of Insurance. It also refers to the company issuing dental coverage, while the term "Qualified Dental Plan" refers to a specific policy or plan to be sold to a consumer that has been certified by Covered California. Qualified Dental Plans are also referred to as "products". The term "Applicant" refers to a Dental Issuer who is seeking to have its products certified as Qualified Dental Plans.

affordable health care, promoting prevention and wellness, and reducing health disparities.

- **Integrity:** The Exchange will earn the public's trust through its commitment to accountability, responsiveness, transparency, speed, agility, reliability, and cooperation.
- **Transparency:** The Exchange will be fully transparent in its efforts and will make opportunities available to work with consumers, providers, health plans, employers, purchasers, government partners, and other stakeholders to solicit and incorporate feedback into decisions regarding product portfolio and contract requirements.
- **Results:** The impact of the Exchange will be measured by its contributions to decrease the number of uninsured, have meaningful plan and product choice in all regions for consumers, improve access to quality healthcare, promote better health and health equity, and achieve stability in healthcare premiums for all Californians.

In addition to being guided by its mission and values, the Exchange's policies are derived from the federal Affordable Care Act which calls upon Exchanges to advance "plan or coverage benefits and health care provider reimbursement structures" that improve health outcomes. The Exchange seeks to improve the quality of care while moderating cost not only for the individuals enrolled in its plans, but also by being a catalyst for delivery system reform in partnership with plans, providers and consumers. With the Affordable Care Act and the range of insurance market reforms that are in the process of being implemented, the health insurance marketplace is transforming from one that has prioritized profitability through a focus on risk selection, to one that rewards better care, affordability, and prevention.

The Exchange needs to address these issues for the millions of Californians who enroll through the Exchange to get coverage, but it is also part of broader efforts to improve care, improve health, and stabilize rising health care costs throughout the state.

The Exchange must operate within the federal standards in law and regulation. Beyond what is framed by the federal standards, California's legislature shapes the standards and defines how the new marketplace for individual and small group health insurance operates in ways specific to their context. Within the requirements of the minimum Federal criteria and standards, the Exchange has the responsibility to "certify" the Qualified Health Plans (QHPs) that will be offered in the Exchange.

The state legislation to establish the Exchange gave authority to the Exchange to selectively contract with issuers so as to provide health care coverage options that offer the optimal combination of choice, value, quality, and service, and to establish and use a competitive process to select the participating health issuers.

These concepts, and the inherent trade-offs among the Exchange values, must be balanced in the evaluation and selection of the Qualified Health Plans that will be offered on the Individual Exchange.

This application has been designed consistent with the policies and strategies of the Exchange Board which calls for the QHP selection to influence the competitiveness of the

market, the cost of coverage, and how value is added through health care delivery system improvement.

1.3 Application Evaluation and Selection

The evaluation of QDP Certification Applications will not be based on a single, strict formula; instead, the evaluation will consider the mix of health and dental plans for each region of California that best meet the needs of consumers in that region and the Exchange's goals. The Exchange wants to provide an appropriate range of high quality health and dental plans to participants at the best available price that is balanced with the need for consumer stability and long-term affordability. In consideration of the mission and values of the Exchange, the Board of the Exchange articulated guidelines for the selection and oversight of Qualified Health Plans which are used when reviewing the Applications for 2020. These guidelines are:

Promote affordability for the consumer– both in terms of premium and at point of care

The Exchange seeks to offer health plans, plan designs and provider networks that are as affordable as possible to consumers both in premiums and cost sharing, while fostering competition and stable premiums. The Exchange will seek to offer health plans, products, and provider networks that will attract maximum enrollment as part of its effort to lower costs by spreading risk as broadly as possible.

Encourage "Value" Competition Based upon Quality, Service, and Price

While premium will be a key consideration, contracts will be awarded based on the determination of "best value" to the Exchange and its participants. The evaluation of Issuer QDP proposals will focus on quality and service components, including history of performance, administrative capacity, reported quality and satisfaction metrics, quality improvement plans and commitment to serve the Exchange population. This commitment to serve the Exchange population is evidenced through general cooperation with the Exchange's operations and contractual requirements which include provider network adequacy, cultural and linguistic competency, programs addressing health equity and disparities in care, innovations in delivery system improvements and payment reform. The application responses, in conjunction with the approved filings, will be evaluated by the Exchange and used as part of the selection criteria to offer issuers' products on the Exchange for the 2020 plan year.

Encourage Competition Based upon Meaningful QDP Choice and Product Differentiation: Patient-Centered Benefit Plan Designs²

The Exchange is committed to fostering competition by offering QDPs with features that present clear choice, product and provider network differentiation. QDP Applicants are required to adhere to the Exchange's standard benefit plan designs in each region for which they submit a proposal. The Exchange is interested in having HMO and PPO products offered statewide. Within a given product design, the Exchange will look for

differences in network providers and the use of innovative delivery models. Under such criteria, the Exchange may choose not to contract with two plans with broad overlapping networks within a rating region unless they offer different innovative delivery system or payment reform features.

Encourage Competition throughout the State

The Exchange must be statewide. Issuers must submit QDP proposals in all geographic service areas in which they are licensed and have an adequate network, and preference will be given to Issuers that develop QDP proposals that meet quality and service criteria while offering coverage options that provide reasonable access to the geographically underserved areas of the state.

Encourage Alignment with Providers and Delivery Systems that Serve the Low-Income Population

Performing effective outreach, enrollment and retention of the low-income population that will be eligible for premium tax credits and cost sharing subsidies through the Exchange is central to the Exchange's mission. Responses that demonstrate an ongoing commitment to the low-income population or demonstrate a capacity to serve the cultural, linguistic and health care needs of the low income and uninsured populations beyond the minimum requirements adopted by the Exchange will receive additional consideration. Examples of demonstrated commitment include: having a higher proportion of essential community providers to meet the criteria of sufficient geographic distribution, having contracts with Federally Qualified Health Centers, and supporting or investing in providers and networks that have historically served these populations to improve service delivery and integration.

Encourage Delivery System Improvement, Effective Prevention Programs and Payment Reform

One of the values of the Exchange is to serve as a catalyst for the improvement of care, prevention and wellness to reduce costs. The Exchange wants QDP offerings that incorporate innovations in delivery system improvement, prevention and wellness, and/or payment reform that will help foster these broad goals. This will include models of patient-centered medical homes, targeted quality improvement efforts, participation in community-wide prevention, or efforts to increase reporting transparency to provide relevant health care comparisons and to increase member engagement in decisions about their course of care.

Demonstrate Administrative Capability and Financial Solvency

The Exchange will review and consider Applicant's degree of financial risk to avoid potential threats of failure which would have negative implications for continuity of patient care and for the healthcare system. The Issuer's technology capability is a critical component for success on the Exchange, so Applicant's technology and associated resources are heavily scrutinized as this relates to long term sustainability for consumers. Additionally, in recognition of the significant investment that will

continue to be needed in areas of quality reform and improvement programs, the Exchange offered a multi – year contract agreement through the 2017 application. Application responses that demonstrate a commitment to the long-term success of the Exchange’s mission are strongly encouraged.

Encourage Robust Customer Service

The Exchange is committed to ensuring a positive consumer experience, which requires Issuers to maintain adequate resources to meet consumers’ needs. To successfully serve Exchange consumers, Issuers must invest in and sustain adequate staffing, including hiring of bilingual and bicultural staff as appropriate and maintaining internal training as needed. Issuers demonstrating a commitment to dedicated administrative resources for Exchange consumers will receive additional consideration.

1.4 Availability

Applicant must be available immediately upon contingent certification of its plans as QDPs to start working with the Exchange to establish all operational procedures necessary to integrate and interface with the Exchange information systems, and to provide additional information necessary for the Exchange to market, enroll members, and provide dental plan services effective January 1, 2020. Successful Applicants will also be required to adhere to certain provisions through their contracts with the Exchange, including meeting data interface requirements with the California Healthcare Enrollment, Eligibility, and Retention System (CalHEERS). Successful Applicants must execute the QDP Issuer contract before public announcement of contingent certification. Failure to execute the QDP Issuer contract may preclude Applicant from offering QDPs through the Exchange. The successful Applicants must be ready and able to accept enrollment as of October 1, 2019.

1.5 Application Process

The application process shall consist of the following steps:

- Release of the Final Application;
- Submission of Applicant responses;
- Evaluation of Applicant responses;
- Discussion and negotiation of final contract terms, conditions and premium rates; and
- Execution of contracts with the selected QDP Issuers.

1.6 Intention to Submit a Response

Applicants interested in responding to this application must submit a non-binding Letter of Intent to Apply, identifying their proposed products and service areas. Only those Applicants who submit the Letter of Intent will continue to receive application-related correspondence throughout the application process.

Applicant’s Letter of Intent must identify the contact person for the application process, along with contact information that includes an email address and a telephone number. On receipt

of the Letter of Intent, the Exchange will issue instructions and a password to gain access to the online Application. A Letter of Intent will be considered confidential and not available to the public. However, the Exchange reserves the right to release aggregate information about all Applicants' responses. Final Applicant information is not expected to be released until the selected Issuers and QDPs are announced. Applicant information will not be released to the public but may be shared with appropriate regulators as part of the cooperative arrangement between the Exchange and the regulators.

The Exchange will correspond with only one (1) contact person per Applicant. It is Applicant's responsibility to immediately notify the Application Contact identified in this section, in writing, regarding any revision to the contact information. The Exchange is not responsible for application correspondence not received by Applicant if Applicant fails to notify the Exchange, in writing, of any changes pertaining to the designated contact person.

4 Applicant Health Plan Proposal

Questions 4.3 – 4.6 are required for currently contracted Applicants. Questions 4.1 – 4.5 required for new entrant Applicants.

Applicant must submit a dental plan proposal in accordance with all requirements outlined in this section.

In addition to being guided by its mission and values, the Exchange's policies are derived from the Federal Affordable Care Act which calls upon the Exchanges to advance "plan or coverage benefits and health care provider reimbursement structures" that improve health outcomes. The Exchange seeks to improve the quality of care while moderating cost not only for the individuals enrolled in its plans, but also by being a catalyst for delivery system reform in partnership with plans, providers and consumers. With the Affordable Care Act and the range of insurance market reforms that have been implemented, the health insurance marketplace will be transformed from one that has focused on risk selection to achieve profitability to one that will reward better care, affordability and prevention.

Applicant may submit proposals to offer both a Children's Dental Plan and a Family Dental Plan. Applicant may submit DPPO and DHMO product proposals in its proposed rating regions. Applicant's proposal must include coverage of its entire licensed geographic service area for which it has adequate network. Applicant may not submit a proposal that includes a tiered network. Applicants must adhere to the Exchange's standard benefit plan designs and the requirements in this section without deviation unless approved by the Exchange.

4.1 Applicant must certify its proposal includes a dental product including the pediatric dental Essential Health Benefit meeting an actuarial value of 85% for each individual plan it proposes to offer in a rating region. If not, Applicant's response will be disqualified from consideration.

4.3 Preliminary Premium Proposals: Final negotiated and accepted premium rates shall be in effect for coverage effective January 1, 2020. Premium proposals are considered preliminary and may be subject to negotiation as part of QDP certification and selection. Premium proposals must be submitted with the Application. To submit premium proposals for Individual

products, Applicant must complete and upload through System for Electronic Rate and Form Filing (SERFF) the Rates Template available at <https://www.qhpcertification.cms.gov/s/QHP>. Premium may vary only by geography (rating region), by age, and by actuarial value.

Dental plan premiums for adults 21 and over will be additive and calculated on a per member basis. The same rate must be charged for adults 19 years and older. The single adult rate will be assessed for each adult in the plan. The same rate must be charged for children age 0 - 18. The single child rate will be multiplied by two for a policy covering two children and by three for policies covering two or more children. Individuals ages 19 and 20 will be assessed the single adult rate and only for purposes of summing total family premium will be considered as children when limiting the total family premium to no more than the three oldest covered children premiums together with covered adult premiums.

Applicant shall provide, in connection with any negotiation process as reasonably requested by the Exchange, detailed documentation on the Exchange-specific rate development methodology. Applicant shall provide justification, documentation, and support used to determine rate changes, including adequately supported cost projections. Cost projections include factors impacting rate changes, assumptions, transactions and other information that affects the Exchange-specific rate development process. This information may be necessary to support the assumptions made in forecasting and may be supported by information from Applicant's actuarial systems pertaining to the Exchange-specific account.

9 Fraud, Waste and Abuse Detection

Questions 9.2.6 and 9.2.11 are required for currently contracted Applicants. All questions required for new entrant Applicants.

The Exchange is committed to working with its QDP issuers to minimize fraud, waste and abuse. The framework for managing fraud risks is detailed in Appendix O (located on the Manage Documents page) U.S. Government Accountability Office circular GAO-15-593SP (available in Manage Documents). The Exchange expects QDP issuers to adopt leading practices outlined in the framework to the extent applicable. Fraud prevention is centered on integrity and expected behaviors from employees and others. All measures to detect, deter, and prevent fraud before it occurs are vital to all Issuer and Exchange operations.

Definitions:

Fraud – Consists of an intentional misrepresentation, deceit, or concealment of a material fact known to the defendant with the intention on the part of the defendant of thereby depriving a person of property or legal rights or otherwise causing injury. (CA Civil Code §3294 (c)(3), CA Penal Code §§ 470-483.5). Prevention and early detection of fraudulent activities is crucial to ensuring affordable healthcare for all individuals. Examples of fraud include, but are not limited to, false applications to obtain payment, false information to obtain insurance, billing for services that were not rendered.

Waste - Intentional or unintentional, extravagant careless or needless expenditures, consumption, mismanagement, use, or squandering of resources, to the detriment or potential detriment of entities, but without an intent to deceive or misrepresent. Waste includes incurring unnecessary costs because of inefficient or ineffective practices, systems, decisions, or controls.

Abuse – Excessive, or improper use of something, or the use of something in a manner contrary to the natural or legal rules for its use; the intentional destruction, diversion, manipulation, misapplication, maltreatment, or misuse of resources; or extravagant or excessive use to abuse one's position or authority. Often, the terms fraud and abuse are used simultaneously with the primary distinction is the intent. Inappropriate practices that begin as abuse can quickly evolve into fraud. Abuse can occur in financial or non-financial settings. Examples of abuse include, but not limited to, excessive charges, improper billing practices, payment for services that do not meet recognized standards of care and payment for medically unnecessary services.

External Audit – A formal process that includes an independent and objective examination of an organization's programs, operations, and records performed by a third party to evaluate and improve the effectiveness of its policies and procedures. The results, conclusions, and findings of an audit are formally communicated through an audit report delivered to management of the audited entity.

Internal Audit - Is an independent, objective assurance and consulting activity designed to add value and improve an organization's operations. It helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.

Review – A second inspection and verification of documents for accuracy, validity, and authorization for compliance with procedural requirements.

12 Healthcare Evidence Initiative

Questions required only for new entrant Applicants.

To fulfill its mission to ensure that consumers have available the plans that offer the optimal combination of choice, value, quality, and service, the Exchange relies on evidence about the enrollee experience with health care. The timely and accurate submission of QDP data is an essential component of assessing the quality and value of the coverage and health care received by Exchange enrollees.

12.1 Applicant must describe any contractual agreements with participating providers that preclude Applicant’s organization from making contract terms transparent to plan sponsors and members.

Applicant must confirm that, if contracted as a QDP issuer, to the extent that any Participating Provider's rates are prohibited from disclosure to the Exchange by contract, Applicant shall identify such Participating Provider. Applicant shall, upon renewal of its Provider contract, but in no event later than July 1, 2020, make commercially reasonable efforts to obtain agreement by that Participating Provider to amend such provisions, to allow disclosure. In entering into a new contract with a Participating Provider, Applicant agrees to make commercially reasonable efforts to exclude any contract provisions that would prohibit disclosure of such information to the Exchange (for example, enrollment, medical and prescription claims, and capitation data required by the Exchange’s Healthcare Evidence Initiative (HEI) Vendor: allowed amounts; charge and charge submitted amounts; coinsurance, copayment, and deductible amounts; paid and net payment amounts; patient total out-of-pocket amounts; capitation amounts; etc.).

- What specific steps is Applicant taking to change these contract provisions going forward to make this information accessible?
- List provider groups or facilities for which current contract terms preclude provision of information to plan sponsors.
- List provider groups or facilities for which current contract terms preclude provision of information to members.

Single, Radio group.

- 1: Confirmed, describe [500 words] ,
- 2: Not confirmed, describe [500 words]

12.2 Applicant must provide the Exchange's HEI Vendor with monthly extracts of all requested detail from applicable fee-for-service (FFS) claims or encounter records for the following claim types. If not, or if yes with deviation, explain. If unable or unwilling to provide all requested detail, elaborate on problematic claim types, estimating the number and percentage of affected claims and encounters.

No space for details provided.

12.4 Can Applicant provide member and subscriber IDs assigned by the Exchange on all records submitted? In the absence of other Personally Identifiable Information (PII), these elements are critical for the HEI Vendor to generate unique encrypted member identifiers linking eligibility to claims and encounter data, enabling the HEI Vendor to follow the health care experience of each de-identified member, even if he or she moves from one plan to another. If not, or if yes with deviation, explain. If unable or unwilling to provide all requested detail, elaborate on problematic data elements, estimating the number and percentage of affected enrollments, claims, and encounters.

15.2 Applicant must confirm that, upon contingent certification of its QDPs, it will cooperate with the Exchange Marketing Department, and adhere to the Covered California Brand Style Guide, located at http://hbex.coveredca.com/toolkit/PDFs/Brand_Style_Guide.pdf, (and Marketing Guidelines, if applicable) when co-branded materials are issued to Exchange enrollees. If Applicant is certified, co-branded items must be submitted in a timely manner, but no later than 10 business days before the material is used; ID cards must be submitted to the Exchange at least 30 days prior to Open Enrollment.

No space for details provided.

Single, Pull-down list.

1: Confirmed,

2: Not confirmed

15.3 Applicant must confirm it will cooperate with Exchange Marketing, Public Relations, and Outreach efforts, which may include: internal and external trainings, press events, collateral materials, and other efforts. This cooperative obligation includes contractual requirements to submit materials and updates according to deadlines established in the QDP Issuer Model Contract.

No space for details provided.

Single, Pull-down list.

1: Confirmed,

2: Not confirmed

15.4 Applicant must indicate their proposed marketing investment to promote enrollment in Individual and Family Plans (on and off exchange). In addition, Applicant must provide projected marketing spend allocation for acquisition versus retention efforts, open enrollment versus special enrollment periods, and brand versus direct response (DR). Applicants that do not meet this expectation must provide an alternate proposal, including supporting evidence and documentation, on the Applicant's equivalent market strategies, and explain how it will better meet Covered California's expectations for enrollee acquisition and retention.

Upon contingent certification, the expectation for all Applicants is to invest at least 0.6% of their individual market gross premium revenue collected (on and off exchange) on marketing and spend at least 65% of their acquisition marketing funds on DR tactics. Applicants that do not meet this expectation must provide an alternate proposal, including supporting evidence and documentation, and explain how it will better meet Covered California's expectations for enrollee acquisition and retention. Applicant may submit any supporting documentation as an attachment.

17 Essential Community Providers

Question required only for new entrant Applicants.

17.1 Applicant must demonstrate that its QDP proposals meet requirements for geographic sufficiency of its Essential Community Provider (ECP) network. All of the criteria below must be met.

1. Applicants must use Essential Community Provider Network Data Submission to indicate contracts with all providers designated as ECP.
2. Applicants must demonstrate sufficient geographic distribution of a mix of essential community providers reasonably distributed throughout the geographic service area.

The Exchange will evaluate whether Applicant's essential community provider network has achieved the sufficient geographic distribution and requirements.

Federal regulations currently require health issuers to adhere to rules regarding payment to non-contracted FQHCs for services when those services are covered by the QDP's benefit plan. Certified QDPs will be required in their contract with the Exchange to operate in compliance with all federal regulations issued pursuant to the Affordable Care Act, including those applicable to essential community providers.

Essential Community Providers include dental providers included in the Covered California Consolidated Essential Community Provider List available at:

<http://hbex.coveredca.com/stakeholders/plan-management/ecp-list/>

Low-income is defined as a family at or below 200% of Federal Poverty Level. The ECP data supplied by Applicant will allow the Exchange to plot contracted ECPs on maps to compare contracted providers against the supply of ECPs and the distribution of low-income Covered California enrollees.
