Certification Application Qualified Dental Plan Small Business Marketplace Plan Year 2023

1 Application Overview

1.1 **Purpose**

The California Health Benefit Exchange (Covered California) is accepting applications from eligible Dental Issuers[1] (Applicants) to submit proposals to offer, market, and sell qualified dental plans (QDPs) through Covered California beginning in 2021~~20~~, for coverage effective January 1, 2032~~31~~. All Dental Issuers currently licensed at the time of application response submission are eligible to apply for certification of proposed Qualified Health Plans (QHPs) for the 2032~~31~~ Plan Year. QDP Issuers contracted for Plan Year 2021~~20~~ will complete a simplified certification application since those issuers already have a contract with Covered California that imposes ongoing requirements that are similar to or satisfy the requirements in the certification application and consideration of this contract performance is included in the evaluation process. Covered California will exercise its statutory authority to selectively contract for health care coverage offered through Covered California for Plan Year 2032~~31~~. Covered California reserves the right to select or reject any Applicant or to cancel this Application at any time.

~~[1] The term "Dental Issuer" used in this document refers to both dental plans regulated by the California Department of Managed Health Care and insurers regulated by the California Department of Insurance. It also refers to the company issuing dental coverage, while the term "Qualified Dental Plan" refers to a specific policy or plan to be sold to a consumer that has been certified by Covered California. The term "product" means a discrete package of health insurance coverage benefits that are offered using a product network type (such as health maintenance organization, preferred provider organization, or exclusive provider organization) within a service area (45 CFR § 144.103). The term "plan" shall have the same meaning as that term is defined in 45 CFR § 144.103. The term "Applicant" refers to a Dental Issuer who is seeking to have its plans certified as Qualified Dental Plans.~~

1.2 **Background**

Soon after the passage of national health care reform through the Patient Protection and Affordable Care Act of 2010 (ACA), California enacted legislation to establish a qualified health benefit exchange. (California Government Code § 100500 et seq). The California state law is referred to as the California Patient Protection and Affordable Care Act (CA-ACA).

Covered California offers a statewide health insurance exchange to make it easier for individuals to compare plans and buy health insurance in the private market. Although the focus of Covered California is on individuals who qualify for tax credits and subsidies under the ACA, Covered California's goal is to make insurance available to all qualified individuals. The vision of Covered California is to improve the health of all Californians by assuring their access to affordable, high quality care coverage. The mission of Covered California is to increase the number of insured Californians, improve health care quality, lower costs, and reduce health disparities through an innovative, competitive marketplace that empowers consumers to choose the health plan and providers that give them the best value.

Covered California is guided by the following values:

Consumer-Focused: At the center of Covered California's efforts are the people it serves. Covered California will offer a consumer-friendly experience that is accessible to all Californians, recognizing the diverse cultural, language, economic, educational and health status needs of those it serves.

Affordability: Covered California will provide affordable health insurance while assuring quality and access.

Catalyst: Covered California will be a catalyst for change in California's health care system, using its market role to stimulate new strategies for providing high-quality, affordable health care, promoting prevention and wellness, and reducing health disparities.
Integrity: Covered California will earn the public's trust through its commitment to accountability, responsiveness, transparency, speed, agility, reliability, and cooperation.
Transparency: Covered California will be fully transparent in its efforts and will make opportunities available to work with consumers, providers, health plans, employers, purchasers, government partners, and other stakeholders to solicit and incorporate feedback into decisions regarding product portfolio and contract requirements.
Results: The impact of Covered California will be measured by its contributions to decrease the number of uninsured, have meaningful plan and product choice in all regions for consumers, improve access to quality healthcare, promote better health and health equity, and achieve stability in healthcare premiums for all Californians.

In addition to being guided by its mission and values, Covered California's policies are derived from the federal Affordable Care Act which calls upon Exchanges to advance "plan or coverage benefits and health care provider reimbursement structures" that improve health outcomes. Covered California seeks to improve the quality of care while moderating cost not only for the individuals enrolled in its plans, but also by being a catalyst for delivery system reform in partnership with plans, providers, and consumers. With the Affordable Care Act and the range of insurance market reforms that are in the process of being implemented, the health insurance marketplace is transforming from one that has prioritized profitability through a focus on risk selection to one that rewards better care, affordability, and prevention.

Covered California needs to address these issues for the millions of Californians who enroll through Covered California to get coverage, but it is also part of broader efforts to improve care, improve health, and stabilize rising health care costs throughout the state.

Covered California must operate within the federal standards in law and regulation. Beyond what is framed by the federal standards, California's legislature shapes the standards and defines how the new marketplace for individual and small group health insurance operates in ways specific to their context. Within the requirements of the minimum Federal criteria and standards, Covered California has the responsibility to "certify" the Qualified Health Plans (QHPs) that will be offered in Covered California.

The state legislation to establish Covered California gave authority to Covered California to selectively contract with ~~issuer~~Issuers to provide health care coverage options that offer the optimal combination of choice, value, quality, and service and to establish and use a competitive process to select the participating health ~~issuer~~Issuers.

These concepts, and the inherent trade-offs among Covered California values, must be balanced in the evaluation and selection of the Qualified Health Plans (QHPs) that will be offered in Covered California for Small Business.

This application has been designed consistent with the policies and strategies of the California Health Benefit Exchange Board which calls for the QHP selection to influence the competitiveness of the market, the cost of coverage, and how value is added through health care delivery system improvement.

1.3 **Application Evaluation and Selection**

The evaluation of QDP Certification Applications will not be based on a single, strict formula; instead, the evaluation will consider the mix of health and dental plans for each region of California that best meet the needs of consumers in that region and Covered California's goals. Covered California wants to provide an appropriate range of high-quality health and dental plans to participants at the best

available price that is balanced with the need for consumer stability and long-term affordability. In consideration of the mission and values of Covered California, the Board of Covered California articulated guidelines for the selection and oversight of Qualified Health Plans which are used when reviewing the Applications for 20233. These guidelines are:

Promote affordability for the consumer – Both in terms of premiums and at point of care
Covered California seeks to offer health plans, plan designs and provider networks that are as affordable as possible to consumers both in premiums and cost sharing, while fostering competition and stable premiums. Covered California will seek to offer health plans, products, and provider networks that will attract maximum enrollment as part of its effort to lower costs by spreading risk as broadly as possible.

Encourage "Value" Competition Based upon Quality, Service, and Price
While premium will be a key consideration, contracts will be awarded based on the determination of "best value" to Covered California and its participants. The evaluation of Issuer QDP proposals will focus on quality and service components, including history of performance, administrative capacity, reported quality and satisfaction metrics, quality improvement plans and commitment to serve Covered California population. This commitment to serve Covered California population is evidenced through general cooperation with Covered California's operations and contractual requirements which include provider network adequacy, cultural and linguistic competency, programs addressing health equity and disparities in care, innovations in delivery system improvements and payment reform. The application responses, in conjunction with the approved filings, will be evaluated by Covered California and used as part of the selection criteria to offer issuerIssuers' products on Covered California for the 20233 plan yearPlan Year 2023.

Encourage Competition Based upon Meaningful QDP Choice and Product Differentiation: Patient-Centered Benefit Plan Designs[1][1]
Covered California is committed to fostering competition by offering QDPs with features that present clear choice, product, and provider network differentiation. QDP Applicants are required to adhere to Covered California's standard benefit plan designs in each region for which they submit a proposal. Covered California is interested in having HMO, and PPO products offered statewide. Within a given product design, Covered California will look for differences in network providers and the use of innovative delivery models. Under such criteria, Covered California may choose not to contract with two plans with broad overlapping networks within a rating region unless they offer different innovative delivery system or payment reform features.

Encourage Competition throughout the State
Covered California must be statewide. Issuers must submit QDP proposals in all geographic service areas in which they are licensed and have an adequate network, and preference will be given to Issuers that develop QDP proposals that meet quality and service criteria while offering coverage options that provide reasonable access to the geographically underserved areas of the state.

Encourage Alignment with Providers and Delivery Systems that Serve the Low-Income Population

[1] The certification year -Patient-Centered Benefit Plan Designs will be finalized when the certification year federal actuarial value calculator is finalized.

Performing effective outreach, enrollment and retention of the low-income population that will be eligible for premium tax credits and cost sharing subsidies through Covered California is central to Covered California's mission. Responses that demonstrate an ongoing commitment to the low-income population or demonstrate a capacity to serve the cultural, linguistic and health care needs of the low income and uninsured populations beyond the minimum requirements adopted by Covered California will receive additional consideration. Examples of demonstrated commitment include having a higher proportion of essential community providers to meet the criteria of sufficient geographic distribution, having contracts with Federally Qualified Health Centers, and supporting or investing in providers and networks that have historically served these populations to improve service delivery and integration.

Encourage Delivery System Improvement, Effective Prevention Programs and Payment Reform
One of the values of Covered California is to serve as a catalyst for the improvement of care, prevention, and wellness to reduce costs. Covered California encourageswants QDP offerings that incorporate innovations in delivery system improvement, prevention, and wellness, and/or payment reform that will help foster these broad goals. This will include models of -primary care dentistspatient-centered medical homes, targeted quality improvement efforts, participation in community-wide prevention, or efforts to increase reporting transparency to provide relevant health care comparisons and to increase member engagement in decisions about their course of care.

Demonstrate Administrative Capability and Financial Solvency
Covered California will review and consider Applicant's degree of financial risk to avoid potential threats of failure which would have negative implications for continuity of patient care and for the healthcare system. Applicant's technology capability is a critical component for success on Covered California, so Applicant's technology and associated resources are heavily scrutinized as this relates to long term sustainability for consumers. Additionally, in recognition of the significant investment that will continue to be needed in areas of quality reform and improvement programs, Covered California offered a multi-year contract agreement through the 2017 application. Application responses that demonstrate a commitment to the long-term success of Covered California's mission are strongly encouraged.

Encourage Robust Customer Service
Covered California is committed to ensuring a positive consumer experience, which requires Issuers to maintain adequate resources to meet consumers' needs. To successfully serve Covered California consumers, Issuers must invest in and sustain adequate staffing, including hiring of bilingual and bicultural staff as appropriate and maintaining internal training as needed. Issuers demonstrating a commitment to dedicated administrative resources for Covered California consumers will receive additional consideration.

[1] The 2022 Patient-Centered Benefit Designs will be finalized when the 2022 federal actuarial value calculator is finalized.

1.4 **Availability**

Applicant must be available immediately upon contingent certification of its plans as QDPs to start working with Covered California to establish all operational procedures necessary to integrate and interface with Covered California information systems, and to provide additional information necessary for Covered California to market, enroll members, and provide dental plan services effective January

1, 2023~~2~~. Successful Applicants will also be required to adhere to certain provisions through their contracts with Covered California, including meeting data interface requirements of the system operated by Pinnacle HCMS. Successful Applicants must execute the QDP Issuer Contract before public announcement of contingent certification. Failure to execute the QDP Issuer Contract may preclude Applicant from offering QDPs through Covered California. The successful Applicants must be ready and able to accept enrollment as of October 1, 2022~~1~~.

1.5 **Application Process**

The application process shall consist of the following steps:

- Completion of Letter of Intent to Apply;
- Release of the Final Application;
- Submission of Applicant responses;
- Evaluation of Applicant responses;
- Discussion and negotiation of final contract terms, conditions, and premium rates; and
- Execution of contracts with the selected QDP li~~i~~ssuers.

1.6 **Intention to Submit a Response**

Applicants interested in responding to this application must submit a non-binding Letter of Intent to Apply, identifying their proposed products and service areas. Only those Applicants who submit the Letter of Intent will receive application-related correspondence throughout the application process. Eligible Applicants who have responded to the Letter of Intent will be issued a web login and instructions for online access to the final Application.

Applicant's Letter of Intent must identify the contact person for the application process, that includes an email address and a telephone number. On receipt of the Letter of Intent, Covered California will issue instructions and a password to gain access to the online Application. A Letter of Intent will be considered confidential and not available to the public. However, Covered California reserves the right to release aggregate information about all Applicants' responses. Final Applicant information is not expected to be released until the selected Issuers and QDPs are announced. Applicant information will not be released to the public but may be shared with appropriate regulators as part of the cooperative arrangement between Covered California and the regulators.

Covered California will correspond with only one (1) contact person per Application. It is Applicant's responsibility to immediately notify the Application Contact identified in this section, in writing, regarding any revision to the contact information. Covered California is not responsible for application correspondence not received by Applicant if Applicant fails to notify Covered California, in writing, of any changes pertaining to the designated contact person.

4 Applicant Health Plan Proposal

Questions 4.3 - 4.7 are required for currently contracted Applicants. All questions are required for new entrant Applicants.

Applicant must submit a dental plan proposal in accordance with all requirements outlined in this section.

In addition to being guided by its mission and values, Covered California's policies are derived from the Federal Affordable Care Act which calls upon the Exchanges to advance "plan or coverage benefits and health care provider reimbursement structures" that improve health outcomes. Covered California seeks to improve the quality of care while moderating cost directly for the individuals enrolled in its plans, and indirectly by being a catalyst for delivery system reform in partnership with plans, providers, and consumers. With the Affordable Care Act and the range of insurance market reforms that have been implemented, the health insurance marketplace will be transformed from one that has focused on risk selection to achieve profitability to one that will reward better care, affordability and prevention.

Applicant may submit proposals to offer both a Children's Dental Plan and a Family Dental Plan. Applicant may submit DPPO and DHMO product proposals in its proposed rating regions. Applicant's proposal must include coverage of its entire licensed geographic service area for which it has an adequate network. Applicant may not submit a proposal that includes a tiered network. Applicants must adhere to Covered California's standard benefit plan designs and the requirements in this section without deviation unless approved by Covered California.

4.1 Applicant must certify that its proposal includes a dental product including the pediatric dental Essential Health Benefit meeting an actuarial value of 85% for each individual plan it proposes to offer in a rating region. If not, Applicant's response will be disqualified from consideration.

Single, Pull-down list.

1: Yes, proposal meets requirements,
2: No

4.2 Applicant must confirm that it will adhere to Covered California naming conventions for on-Exchange plans and off-Exchange mirror products where applicable, pursuant to Government Code 100503(f).

Single, Pull-down list.

1: Confirmed,
2: Not confirmed

4.3 Preliminary Premium Proposals: Final negotiated and accepted premium rates shall be in effect for coverage effective January 1, 20233~~2~~. Premium proposals are considered preliminary and may be subject to negotiation as part of QDP certification and selection. Premium proposals must be submitted with the Application. To submit premium proposals for Individual products, Applicant must complete and upload through System for Electronic Rate and Form Filing (SERFF) the Rates Template available at: https://www.qhpcertification.cms.gov/s/QHP. Premium may vary only by geography (rating region), by age, and by actuarial value.

Dental plan premiums for adults 21 and over will be additive and calculated on a per member basis. The same rate must be charged for adults 19 years and older. The single adult rate will be assessed for each adult in the plan. The same rate must be charged for children age 0 - 18. The single child rate will be multiplied by two for a policy covering two children and by three for policies covering more than two children. Individuals ages 19 and 20 will be assessed the single adult rate, and only for purposes of summing total family premium will be considered as children when limiting the total family premium to no more than the three oldest covered children premiums together with covered adult premiums.

Applicant shall provide, in connection with any negotiation process as reasonably requested by Covered California, detailed documentation on Covered California-specific rate development methodology. Applicant shall provide justification, documentation, and support used to determine rate changes, including adequately supported cost projections. Cost projections include factors impacting rate changes, assumptions, transactions, and other information that affects Covered California-specific rate development process. This information may be necessary to support the assumptions made in forecasting and may be supported by information from Applicant's actuarial systems pertaining to Covered California-specific account.

9 Fraud, Waste and Abuse Detection

This section not required if Applicant has completed the Qualified Dental Plan Application Plan Year 2023 Individual Marketplace.

Certification Application Qualified Dental Plan Small Business Marketplace Plan Year 2023

Questions 9.2.1-9.2.3, 9.2.5-9.2.6 are required for currently contracted Applicants. All questions are required for new entrant Applicants.

Covered California is committed to working with its QDP Iissuers to minimize Ffraud, Wwaste, and Aabuse, as defined in Section 18 - Glossary. The framework for managing fraud risks is detailed in Appendix A-O U.S. Government Accountability Office circular GAO-15-593SP (located on the Manage Documents page). Covered California expects QDP Iissuers to adopt leading practices outlined in the framework to the extent applicable. Fraud prevention is centered on integrity and expected behaviors from employees and others. All measures to detect, deter, and prevent fraud before it occurs are vital to all Issuer and Covered California operations. This Certification ensures that Applicant has policies, procedures, and systems in place to prevent, detect, and respond to fraud, waste, and abuse.

Definitions:

Fraud – Consists of an intentional misrepresentation, deceit, or concealment of a material fact known to the defendant with the intention on the part of the defendant of thereby depriving a person of property or legal rights or otherwise causing injury. (CA Civil Code §3294 (c)(3), CA Penal Code §§ 470-483.5). Prevention and early detection of fraudulent activities is crucial to ensuring affordable healthcare for all individuals. Examples of fraud include, but are not limited to, false applications to obtain payment, false information to obtain insurance, billing for services that were not rendered.

Waste - Intentional or unintentional, extravagant careless or needless expenditures, consumption, mismanagement, use, or squandering of resources, to the detriment or potential detriment of entities, but without an intent to deceive or misrepresent. Waste includes incurring unnecessary costs because of inefficient or ineffective practices, systems, decisions, or controls.

Abuse – Excessive, or improper use of something, or the use of something in a manner contrary to the natural or legal rules for its use; the intentional destruction, diversion, manipulation, misapplication, maltreatment, or misuse of resources; or extravagant or excessive use to abuse one's position or authority. Often, the terms fraud and abuse are used simultaneously with the primary distinction is the intent. Inappropriate practices that begin as abuse can quickly evolve into fraud. Abuse can occur in financial or non-financial settings. Examples of abuse include, but not limited to, excessive charges, improper billing practices, payment for services that do not meet recognized standards of care and payment for medically unnecessary services.

External Audit – A formal audit process that includes an independent and objective examination of an organization's programs, operations, and records performed by a third party (e.g., independent audit or consulting firm, state and federal oversight agencies, etc.) to evaluate and improve the effectiveness of its policies and procedures. The results, conclusions, and findings of an audit in California or any other state(s) where Applicant provides services are formally communicated through an audit report delivered to management of the audited entity.

Internal Audit Function - An internal audit function is accountable to an organization's senior management and those charged with governance of the audited entity. An internal auditing activity is an independent, objective assurance and consulting activity designed to add value and improve an organization's operations. Internal Auditing helps an organization accomplish its objectives by bringing a systematic, disciplined approach to evaluate and improve the effectiveness of risk management, control, and governance processes.

16 Essential Community Providers

This section not required if Applicant has completed the Qualified Dental Plan Application Plan Year 2023 Individual Marketplace.

Question required only for new entrant Applicants.

16.1 Applicant must demonstrate that its QDP proposals meet requirements for geographic sufficiency of its Essential Community Provider (ECP) network. All the criteria below must be met.

1. Applicants must use Essential Community Provider Network Data Submission to indicate contracts with all providers designated as ECP.
2. Applicants must demonstrate sufficient geographic distribution of a mix of essential community providers reasonably distributed throughout the geographic service area.

Covered California will evaluate whether Applicant's essential community provider network has achieved the sufficient geographic distribution and requirements.

Federal regulations currently require health issuers to adhere to rules regarding payment to non-contracted FQHCs for services when those services are covered by the QDP's benefit plan. Dental Issuers will be required in their contract with Covered California to operate in compliance with all federal regulations issued pursuant to the Affordable Care Act, including those applicable to essential community providers.

Essential Community Providers include dental providers included in the Covered California Consolidated Essential Community Provider List available at:
http://hbex.coveredca.com/stakeholders/plan-management/ecp-list/

Low-income is defined as a family at or below 200% of Federal Poverty Level. The ECP data supplied by Applicant will allow Covered California to plot contracted ECPs on maps to compare contracted providers against the supply of ECPs and the distribution of low-income ~~Covered California enrollee~~Covered California Enrollees.

Abuse – Excessive, or improper use of something, or the use of something in a manner contrary to the natural or legal rules for its use; the intentional destruction, diversion, manipulation, misapplication, maltreatment, or misuse of resources; or extravagant or excessive use to abuse one's position or authority. Often, the terms fraud and abuse are used simultaneously with the primary distinction is the intent. Inappropriate practices that begin as abuse can quickly evolve into fraud. Abuse can occur in financial or non-financial settings. Examples of abuse include, but not limited to, excessive charges, improper billing practices, payment for services that do not meet recognized standards of care and payment for medically unnecessary services.

External Audit – A formal audit process that includes an independent and objective examination of an organization's programs, operations, and records performed by a third party (e.g., independent audit or consulting firm, state and federal oversight agencies, etc.) to evaluate and improve the effectiveness of its policies and procedures. The results, conclusions, and findings of an audit in California or any other state(s) where Applicant provides services are formally communicated through an audit report delivered to management of the audited entity.
