

July 16, 2014

California Tribal Leaders:

I want to extend my welcome to Covered California's third annual Tribal Consultation. Covered California is committed continuing our work with Tribes and Tribal health programs to maximize the participation of eligible American Indians and Alaska Natives in our program and provide the unique benefits offered by the Affordable Care Act. Covered California implemented our Tribal Consultation process in 2012, and we have appreciated your partnership in building a strong and lasting relationship. We look forward to continuing this partnership in the years to come through the Tribal Advisory Workgroup and our annual Tribal Consultation and other engagements.

Enclosed you will find responses to the Tribal Advisory Workgroup letter entitled "Recommendations to Improve the Covered CA System for American Indians and Alaska Natives." We appreciate your dedication to these and other issues that matter to American Indians and Alaska Natives.

Thank you for your continued partnership in making high quality, affordable health care a reality for Californians.

Sincerely,

Peter V. Lee
Executive Director
